OFFICE OF THE CLERK

Date 2-15-15

8:15CV62

I wish to submit a complaint to  
seek damages (money) & an injunction to give me  
relief or injunctive relief (to stop or require  
someone to do something) in a civil action  
as I believe my inmate & Constitutional rights have  
been violated & continue to be violated as my  
medical condition worsens from lack of  
dequate medical treatment, or treatment at  
all. I have many physical injuries & chronic  
physical conditions I suffer from for which  
I am not receiving appropriate medical  
attention or medicines for to control & eliminate  
excessive suffering & mental/emotional distress  
as well. Those I wish to seek action & injunctive  
relief from ARE Hall County, Hall County Jail,  
Hall County Medical Unit, Hall Co. Medical APRN, Hall Co  
Aid Investigative officer, Hall Co Jail director ~~and~~  
Jail Administrator for failure to protect me

from further injury & suffering or excessive suffering knowingly of my complaints & conditions

I suffer from cervicalgia, lumbago, chronic musculoskeletal conditions in Both shoulders, Neck & complete back;

The cartilage is completely Broken off the Arm bones within my L+R shoulder joints & has not been removed surgically; & continues the float around within the joint, A lot of times getting pinched by bones within the Joint of L+R shoulders. Also my Arms & hands go numb

At times & I fear further future risk of Nerve damage within the shoulder joints, Arms & hands. Also I have multiple bone spurs within the shoulder joints growing larger AS A result of bones in shoulder joint grinding together & hangin together. Also I'm diagnosed with Glenomeral joint, moderate to severe Osteo Arthritis, Anthralgia Bursitis, tendonitis, & chronic pain of Both shoulders AS well Acromioclavicular injuries within shoulders Also AS A result of "injury & overuse"; Bilateral forearm pain + ULNAR Nerve irritation in L+R shoulders AS well.

I have been diagnosed with heart palpitations AS A result of increased back pain when not treated properly back in 6-6-13. Diagnosed with bone spurs in my Neck & straightening of the Neck AS well which is painful & contributes to chronic musculoskeletal conditions of Neck & upper back, for which I tore trapezius muscle right where diagnosed with cervicalgia, AS A result of not receiving

proper treatment or medication & denial of all my warnings, complaints & grievances of needing exact meds to treat symptoms previous to tearing muscle as diagnosed by DR. PICCALO in LANCASTER Jail NOV 2014 where I was incarcerated 7-28-14 to 1-28-15. On 1-28-15 I was transferred here to Hall County Jail, where my treatment has been severely neglected & half hearted since my arrival. I have not received any ADEQUATE muscle or inflammation medications since my arrival 19 days ago. tramadol 100mg (PAINmed) & seragvil 25mg (psychmed) ARE ALL I am receiving currently and its clear to see this is not a standard or ADEQUATE Level of care being given to me considering all the conditions & injuries I suffer from. I fear future further risk of injury of my Neck from Nerve damage, increased or continued growth of bone spurs in Neck vertebrae, permanent headaches & nausea limited movement & /or paralysis in the future combined with increased Anxiety from pain, mood swings, lack of concentration, & fear of increased pain & lack of mobility overall. I have been to many many doctors & private doctors & none have treated me as basic & minimal as Hall County Jail as my medical records will indicate. My injuries were from a Auto Accident

previously to my incarceration, Also my ortho doctor in Des Moines, IA scheduled me for MRI's of Both shoulders in July 2014 @ Broadlawn Medical Center because he stated he suspected 2 Rotator cuff tears in Both shoulders As well, but I was arrested before MRIs were performed. MRI's Needed done before he could inject shoulder with pain relief, because Dr Runken recommended shoulder replacements in both shoulders & MRI ~~was~~ needed to know to schedule operation for "conventional" shoulder replacement joint or "reverse" shoulder replacement joint for which a "reverse" is needed if cuffs ~~is torn~~ are torn & vice versa.

Nurse in Hallco Medical (Jail) told me upon my complaint "If I wasn't happy with tramadol, then she'd cancel it!" Now, I fear further suffering & retaliation (medical) from Jail, just as I did in Oct 2014 when I tore my BACK muscle in Lancaster Co Jail. I feel I am being Insulted by Medical Staff now, as of my last couple visits.

I seek "In forma Pauperis" as a indigent inmate please send me IFP App as soon as possible. Your swift Action to matters will be appreciated. I seek an P.L.R.A. Action in said matters.

Best Regards

Conan Chop
